NOTE: Great job for all those running their first cross country race of the year or ever! I was very impressed. Several items to consider when comparing your time to last year. We ran this meet last year a week later in our training due to the

mud. Last year's course was a tad different due to the muddy conditions and I figure that course was between 5-10 seconds faster than this year. The regular course was in great shape and the weather was about 62° with about an 11mph wind so just a little more wind than last year. Keep working on your form and we will keep getting better! If you didn't get your award after the race, you may do so at practice or the next meet.
