FYI: What a beautiful day for a run especially given the COVID-19 situation! Temperatures were 74-76° with a South wind at 20 mph. We have never had a day this warm and windy according to my records. We have had several years 2008, 2017 and 2018 that were 20° colder and with 15-20 mph winds from the North. There is really nothing to compare it to as running in the heat is much worse than running in the cold. My best guess would be to take off about 10-15 secs for the 2K, about 30 secs for the 3K and 40 sec for the 4K unless someone was blocking the wind for you the entire way. It is not about the time. It is about the effort and what you learned today that will make you better in later races.
