FYI: What a beautiful day for a run and on a great course that replicates the national course in Paris, KY! Temperatures were 62° with a NNE wind at 8-10 mph. This is the second race at Grain Valley North Middle School. Some excellent races and even better efforts. Remember - It is not about the time. Each course is different; footing, hills as well as their placement and even the height of the grass. Weather factors (wind, heat, cold & rain) play an important role in how difficult each course is. Some courses are long, some are short and hopefully like this one spot on. The only time you can really compare is when you run the same course. Even that can change based on weather conditions. It is about the effort. What did you learn today that will make you better in later races? We look forward to seeing many of you at the national meet in Shelbyville, IN.
